### Investigation of the Essay

Show:

[The Hook]The universe of comics is immense and consistently broadening. The storyline of the comics follows legends and bad guys as they struggle in metropolitan networks with comparative social components as our own.

[Brief intro]This imaginary affiliation gives us an unprecedented stage to address and discuss conditions and circumstances in the light of moral perspective without living it.

[Suggestion Statment]One such circumstance that animates our moral perspective comes from DC's Batman comic book books. Should Batman kill the Joker or could it be fitting for him not? A request that I will answer in the light of Utilitarianism, Deontology, and Virtue Ethics.

### Body Paragraph

#### Segment 1

[Subject Sentence]: as indicated by Utilitarianism's 'end legitimize the means', Batman should kill the Joker as it will save countless lives from this point forward.

[Argument]: As saving endless lives is positive then, losing them, the 'morally dedicated' movement is viewed as morally right. In committing the killing, Batman shows what is known as 'Moral Altruism': he takes on the psychological damage to save a ton from here onward.

#### Segment 2

[Subject Sentence]: The deontology perspective would totally excuse the chance of Batman killing the Joker. To Deontologists the completions never legitimize the means, and the many lives saved don't legitimize the killing.

[Argument]: Batman has gotten through himself in the ownership of the Joker, especially when Jason Todd was killed by Joker; Yet, Batman never chose to kill Joker. Regardless, as shown by the deontology, Batman

killed Joker out of basic self-conservation. Toward the day's end, the killing was fine anyway under outstanding circumstances.

#### Entry 4

[Point Sentence]: To kill an individual would be something unsuitable to achieve for a person with motivation is to keep the particular thing from happening elsewhere.

[Argument]: In concurrence with the Aristotelian honorableness ethics, an individual should do exhibits of judiciousness so to speak. For this, the character of an individual should never conflict with, in actuality. Accepting that Batman kills, there won't be any contrast among him and the heretics he is fighting.

#### Conclusion

Utilitarianism holds that he should kill the Joker for everybody's wellbeing, the Deontology school contrasts saying the exhibition of killing is misguided and will remain so. While Aristotelian ethics and uprightness hold that killing would mean an irregularity and a lack of character. Batman shouldn't kill the joker since he can't become what he is fighting against.
